

## RAZR<sup>2</sup> V9m

The ultra sleek RAZR<sup>2</sup> V9m offers the most advanced technology with the latest design to create an ideal mobile device with the features consumers love, and a new level of experience they can't live without.

Its sculpted body, vacuum metal finish and jewelry like accents highlight the strong, streamlined flip design and put the spotlight on the 2.0" QVGA color external display.

A 2 megapixel camera featuring a powerful 4x digital zoom enables consumers to capture the moment. Users can record video and play it back on the high-resolution beautiful, large, color internal screen and enjoy the optional removable memory for storing content.

Quick access to the message inbox, recent calls and music via touch sensitive buttons on the large external screen puts consumers in charge of communication. Consumers can also read and manage incoming text<sup>1</sup> without ever opening the flip. EVDO capability for quick downloads of favorite content and Internet access enhances a fast paced lifestyle.<sup>1</sup> With integrated stereo Bluetooth wireless technology<sup>2</sup>, large internal memory and up to 2GB of optional removable memory, the Motorola V9m is a flexible package that consumers will crave and non-owners will envy.

Certain mobile phone features are dependent on the capabilities and settings of your service provider's network. Additionally, certain features may not be activated by your service provider, and/or their network settings may limit the feature's functionality. Always contact your service provider about feature availability and functionality. All features, functionality and other product specifications are based upon the latest available information and are believed to be accurate; however such product specifications are subject to change without notice or obligation.

<sup>1</sup> Network dependent feature, not available in all areas. Airtime, data charges, and/or additional charges may apply.

<sup>2</sup> This device supports Bluetooth A2DP, AVRCP, DUN-GW, FTP-Server, GAP, GAVDP, Headset-AG, HFP (1.5) AG, OPP-Client, OPP-Server profiles. In order for Bluetooth devices to communicate with one another, they must utilize the same Bluetooth profile. To determine the profiles supported by other Motorola devices, visit [www.hellomoto.com/bluetooth](http://www.hellomoto.com/bluetooth). For other devices, contact their respective manufacturer.

Certain Bluetooth features including those listed may not be supported by all compatible Bluetooth-enabled devices, and/or the functionality of such features may be limited in certain devices, or by certain wireless carriers. Contact your wireless carrier about feature availability and functionality.

<sup>3</sup> All talk and standby times are quoted in Digital Mode, and are approximate. Battery performance depends on network configuration, signal strength, operating temperature, features selected, and voice, data and other application usage patterns.
